

Milford Care scoops Building Excellence Award

Milford Care's new Retirement Living scheme in Belper, which include Lady Well Views Retirement Apartments and Spencer Grove Care Home, won the prize for Best Healthcare Development in the East Midlands in the LABC Building Excellence Awards.

The sold-out Award ceremony took place at the Village Hotel Nottingham on the 12th June. Over 300 guests were delighted to see and be involved in the best construction projects in the East Midlands.

Pierre Falleth, Business Manager of Milford Care, commented "We've spent 4 years on designing and developing this scheme in Belper and to win the LABC Building Excellence Award is a fantastic recognition of the construction and design quality of this development".

The LABC Building Excellence Awards recognise and reward the best quality construction in the East Midlands. The quality stems from good design and an efficient design team, and is translated into quality buildings by an effective construction team. The judges from the local authority Building Control were looking for attention to detail, evidence of a positive working relationship with Building Control and all round build quality.

Regional winners will be put forward to the LABC national awards in October in London, where they will compete against winners from the other LABC regions.
