

Milford Care scoops award for its Retirement Apartment scheme in Belper

Milford Care's new Retirement Apartment & Care Home scheme in Belper, called Lady Well Views Retirement Apartments and Spencer Grove Care Home received the Specially Commended award in the Pinders Healthcare Design Awards ceremony in London.

Pierre Falleth, Business Manager of Milford Care, commented "We've spent 4 years on designing and developing this scheme and the Pinders award is a great recognition for the efforts and investment we've put into this scheme".

Pinders have been organising the Healthcare Design Awards since 1999, and the presentation ceremony is now one of the 'must-go' diary dates in the healthcare calendar. The Awards aim to promote and recognise the very best developments in all types of care-related property.

The Healthcare Design Awards seek to acknowledge the contribution by owners of care schemes, designers and architects to the well-being and quality of life for those in their care.

Whilst architectural standards and innovation are key factors, the overriding test for any project is the degree to which it has recognised the needs and desires of the residents and incorporated these into the final design. The judges reward quality of care, achieved through quality of design, rather than design alone.
