At the Meadows in Alfreton we understand how important it is to offer a consistently high level of care.

Whether welcoming newcomers to our home, or taking care of residents who are already part of our family, we have their quality of life, contentment and physical comfort at the heart of all we do.

The Meadows is a purpose built care home surrounded by its own landscaped gardens. An inviting patio is much used by our residents, particularly on a warm and sunny day. All of this, together with the town's nearby shops and amenities, combine to offer a homely environment within an established community.

The home is specially designed to create a community feel. We continually look to enhance the environment to promote greater independence for residents.

Our home-cooked meals cater for all dietary and cultural needs, with snacks and hot and cold drinks available 24 hours a day.

On the social front, our activities coordinator organises entertainment and in-house activities to suit all tastes.

Above all, our highly experienced nurses and carers are devoted to making our residents feel both nurtured and at home, no matter how short or long their stay with us.

For more information, or if you would like to visit our home, please get in touch.
